

THE PRO-LINE STORY

In 1968, Dan Atwood started a fishing boat company that would grow to become the largest manufacturer of top quality, blue water fishing boats in the United States. His first model, a 24 foot twin console, was designed for professional fishing guides, and since that was his market, Dan decided to name his new company Pro-Line Boats.

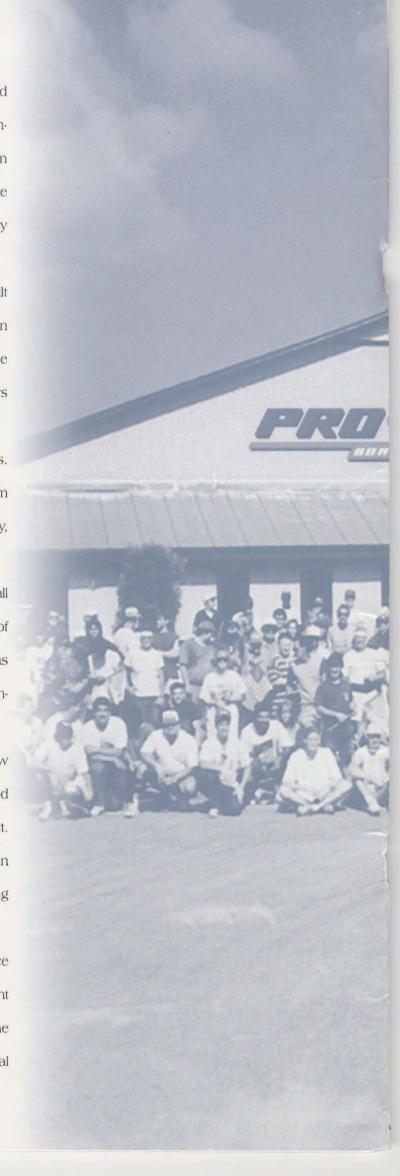

There was no escaping the fact that every Pro-Line was built by fishermen for fishermen, and customers and dealers soon began to pay attention to the new company. Dan responded with the addition of the Pro 17 and Pro 20. Pro-Line now had dealers throughout Florida, Georgia and Alabama.

As Pro-Line's reputation grew, so did the need for bigger facilities. With foresight, Dan found a location that offered him plenty of room for growth and relocated his crew to what is still their home today, Homosassa, Florida.

In 1986, Lee Kimmell, Lewis Ranieri and Ken Wilson, successful Wall Street investors of Salomon Brothers fame, offered Dan an infusion of working capital; and a new company, American Marine Holdings was formed. Lewis had long been going to the area to pursue his love of fishing, and he knew a winner when he fished one.

By 1989 fishermen around the world had come to know Pro-Line. Models now ranged from 16 to 28 feet. Orders rushed in and dealers jumped at the chance to offer this hot product. Today Pro-Line has grown to offer top-quality fishing boats in center consoles, walkarounds, expresses, performance fishing boats, sportfish boats, bay boats and flats boats.

Chairman and CEO Lee Kimmell, President Mike Collins and Vice Chairman Dan Atwood, owe their success to the simple, but important philosophy of always building the highest quality fishing boats on the water and never wavering from their commitment to total customer satisfaction.

A LETTER FROM THE CHAIRMAN AND CEO

There is a strong heritage to Pro-Line. A heritage that infuses each boat with the kind of strength that results when design and engineering is centered on the fisherman, the needs of his family, and the conditions they encounter pursuing their love of the sport. In this, our 33rd year, never has our heritage been more eloquently expressed in more models and more choices.

This year, the growing number of models in the Pro-Line family totals 27 - more than any other comparable fishing boat manufacturer. Each makes a personal statement for style that correctly represents your boating and fishing needs. Pro-Line enjoys a 97% customer satisfaction rating and we want to insure that we continue to build new models that satisfy every niche and need of today's professional and recreational fisherman. And we won't be satisfied until we reach a customer satisfaction rating of 100%. Because dollar for dollar, feature for feature, nobody beats a Pro-Line for quality, innovation and design.

With the tremendous success of last year's 30 Series, Pro-Line repeats its performance by introducing our new 27 Series. The 27 Express, 27 Walk and 27 Sport offer unparalleled quality in a range of fishability, style and comfort. Our new 26 Walk begins to blur the line between bigger boat amenities and smaller boat efficiency. And with your choice of I/O or outboard power, you get more fishing options than ever before. Last but not least, Pro-Line, who pioneered and perfected the center console enclosed head, has applied its innovative design to our 20 Sport and 19 Sport. You no longer have to sacrifice an enclosed head because your fishing needs require a smaller boat.

Beyond new designs and fishing innovations, Pro-Line continues to hone and improve its building techniques. We continue to refine our exclusive F.I.S.T. (Fiberglass Integrated Structural Technology) wood-free construction. As a result, all 2001 Pro-Line models come standard with our exclusive Pro-Care 5-year comprehensive warranty. No other boat manufacturer offers the same protection or the same extensive coverage as Pro-Care. This means all you have to worry about is catching fish, and we'll worry about taking care of your boat.

On a final note, Mike Collins, Dan Atwood and I, as well as all of Pro-Line's employees, want to welcome you into the Pro-Line family. Whether this is your first or your fifth Pro-Line, you are part of a very special group. We not only build these boats, we fish them every weekend, every tournament, every chance we get. We understand the passion. That's why we can honestly say, "Pro-Lines are built by fishermen, for fishermen." After all, it's more than our legacy - it's our heritage.

Happy Fishing,

Lee Kimmell, Chairman & C.E.O.

THE PRO-CARE 5-YEAR LIMITED WARRANTY. WE BUILD THEM RIGHT, WE BACK THEM RIGHT!

Alright, here's the deal. You go fishing. You find the fish, clean the fish, cook and eat the fish. If anything goes wrong with your boat, we'll fix it - for 5 years! That's right...that's Pro-Care. Pro-Line's exclusive 5-year comprehensive warranty program that backs your new Pro-Line on all factory built components, all factory installed equipment and all factory installed after-market accessories. And it comes standard on all 2001 Pro-Line models.

It covers the engines, out-drives, mechanical systems, controls, electrical systems, electronics, plumbing, lighting, stereo, galley equipment, pumps, macerators, tanks, you name it, if it came from Pro-Line and it breaks, we'll fix it - for 5 years! Better yet, Pro-Care comes with a 24-hour toll-free hotline, free towing and dockside assistance, and is transferable to the next owner. It's that simple.

How can Pro-Line do this? Build better boats and then back them better, that's how. So go ahead and fish to your hearts content. We'll make sure you can count on your Pro-Line.

THE PRO-LINE EXPRESS. BIG WATER TOURNAMENT FISHBOATS.

They say, "Attitude is everything." At Pro-Line we live that philosophy. Because the only way any angler becomes number one is by being number one. Our superb fit and finish isn't just on the surface, it's a sign of the underlying quality you will find in every boat we build.

Starting on the drawing board, we look to optimize the fishability and the quality of life you'll experience on your new Pro-Line Express. The cabins are well designed, large and airy. Enclosed heads are spacious. Non skid decking is everywhere. Helm stations are a masterpiece of ergonomic design and fishing features are abundant.

All on-board systems utilize marine grade components. Wiring connections are protected from breakage and

corrosion. Clearly labeled bus-bars make the addition of future equipment easy and worry-free.

Top quality materials are the only materials we use – 3610 multi-axial fiberglass cloth, 316-L Stainless Steel hardware thru-bolted with aircraft locking nuts, 32 Oz. U.V. protected vinyl, 3M 5200 marine sealant bonds the hull and deck joint. We lead the industry with our F.I.S.T. no wood/no rot construction technologies. We exceed N.M.M.A., U.S. Coast Guard and European C.E. requirements. The list goes on.

Why do we use such high grade materials and components? Because the people that design and build your Pro-Line Express know what "big water" means and they won't work with anything less.

Whatever your pleasure - cruising in luxury or hardcore fishing the 32 Express delivers. With generous 6'8" headroom and the largest interior of any Pro-Line, the accommodations below are exceptional. Topside, there's even more room, with a spacious helm opening onto a tournament size 75 sq. ft. cockpit. Naturally, there is every sort of fishing feature aboard (after all, it is a Pro-Line), from lockable rod storage to a 35-gallon recirculating baitwell. This truly is a do-everything boat, combining Express styling, a proud fishing tradition, and speeds capable of exceeding 50 mph.

THE PRO-LINE WALK. OVERNIGHT SUCCESSES SINCE THE DAY THEY WERE LAUNCHED.

live-aboard comfort at your favorite fishing spot. Our design team has molded every inch of these boats into the perfect combination of fishing, comfort and safety.

Deep vee hulls with reverse chines transform rough water in to a smooth, stable and dry ride. Full instrumentation is wired with heat shrunk connections and is color coded and labeled for easy equipment customization. For added safety there's deep interior freeboard with wide, deep walks around the boat.

Below deck, spacious cabins boast the styling and amenities of a waterfront condominium. Cushions are made of high grade Scotchguarded fabric that zip off

Built for wide open waters, Pro-Line Walks offer for easy cleaning. Storage is abundant. Everything is designed with a bright and airy feeling that takes full advantage of the surrounding sea breeze.

> Every inch of the boat utilizes top quality, marine grade components - 3610 multi-axial fiberglass cloth, 316-L Stainless Steel hardware thru-bolted with aircraft locking nuts, 32 Oz. 26 WALK

Available with either outboard or I/O power options, the 26 Walk offers true big boat features in a smooth riding mid sized hull. We started with an incredible 72 square foot cockpit flanked by two 400 gallon fish boxes below deck then backed it up with a fighting transom with a full bait and tackle station and transom door. Now move forward past the smartly equipped helm station to a bright and airy cabin with a full galley, enclosed head and standup shower. This is a perfect blend of style and engineering that results in a superbly performing fishing machine that is just packed with creature comforts.

Want to fish all day and spend the night aboard? Here's two cabin boats loaded with all the features you're looking for. Each Walk comes complete with a full complement of standard fishing features like rod racks and rod holders, fishbox tackle drawers and more - plus a surprisingly large cabin. Deep freeboard, wide walks and hefty bow rails make these models popular with families, as well as fishermen. Best of all, the economies of operating these outboard-powered, trailerable boats, means you can fish all day without spending a fortune.

THE PRO-LINE SUPER SPORT. SUPER PERFORMANCE. SUPER FEATURES. SUPER FISHABILITY.

Thinking about owning a go fast fish boat? Well you'd better think fast because our Super Sports combine performance hulls with wider beams resulting in veritable fishing rockets!

Whether you are competing on the tournament circuit, fishing the canyons, doing lunch in the bahamas or diving off the California coast, the Super Sports are designed and built to handle it. These go-fast wide beam boats offer you smooth trolling and full fishing room from the generous cockpit area. Designed in and close at hand is a treasure trove of fishing features that serious anglers will understand and appreciate.

We've started off with all of the fishing features that have made our center console Sports the top choice of serious anglers for years and then asked professional anglers to tweak fishability to the max. Don't forget the rugged construction and top quality components that has earned us the top reputation in blue water fish boats. Now design it all into a 22 degree, race proven, deep vee hull that planes quick and runs fast, smooth and dry.

The end result is that each Super Sport model maximizes your ability to run hard and to fish hard. So take take a good look at these boats because soon they'll be going fast to a fishing spot near you.

34 SSC SUPER SPORT CUDDY

At more than 34 feet long and over 9 feet wide the 34 SSC & the 34 SS have all the power, speed and range you need to beat the crowd to the best fishing grounds. The race-proven hull can take on the toughest waters and a full slate of well-thought-out fishing features proves her Pro-Line heritage. There's a large enclosed head in the console with fresh water sink and shower for comfort. And for speed, bolt on up to three 250 hp outboards to the integrated bracket. Then hold on to your favorite fishing hat this baby can fly!

THE PRO-LINE SPORT. TOP QUALITY IN A TOP FISHBOAT.

Pro-Line Sports offer you the perfect combination of fishing, fishing and fishing. It's Cad/Cam design with the button for fishing clicked on the high setting.

Start off with a stern cockpit designed around fishing. There is plenty of room for fighting the big one while loads of fishing features are right at hand. Fishboxes are foam insulated and drain overboard. Insulated bait boxes are close by and rod holders are everywhere. A large command console offers plenty of storage and room for your favorite electronics. The wide beams leave generous access to bow casting decks giving anglers room to spread out.

Deep vee hulls with reverse chines transform rough water in to a smooth, stable and dry ride. Wiring is

color coded with heat shrunk connections and labeled for easy equipment customization. 30 SPORT

New for the 2001 model year, the 30 Sport wide beam is all about all-out fishing. Compared to any other 30-foot center console on the market, everything about this new Pro-Line is longer, wider, bigger and tougher. With a beam almost eleven feet wide, the 30 Sport carries an enormous console, enclosing a stand-up head and sleeping berth. Plus, the 30 Sport is loaded with a long list of standard equipment, like fore-and-aft bilge pumps, full premium instrumentation, a locking electronics box and lots of dry storage. Best of all, the spacious cockpit leaves plenty of room for fighting fish instead of fighting for space.

The 27 Sport represents the next

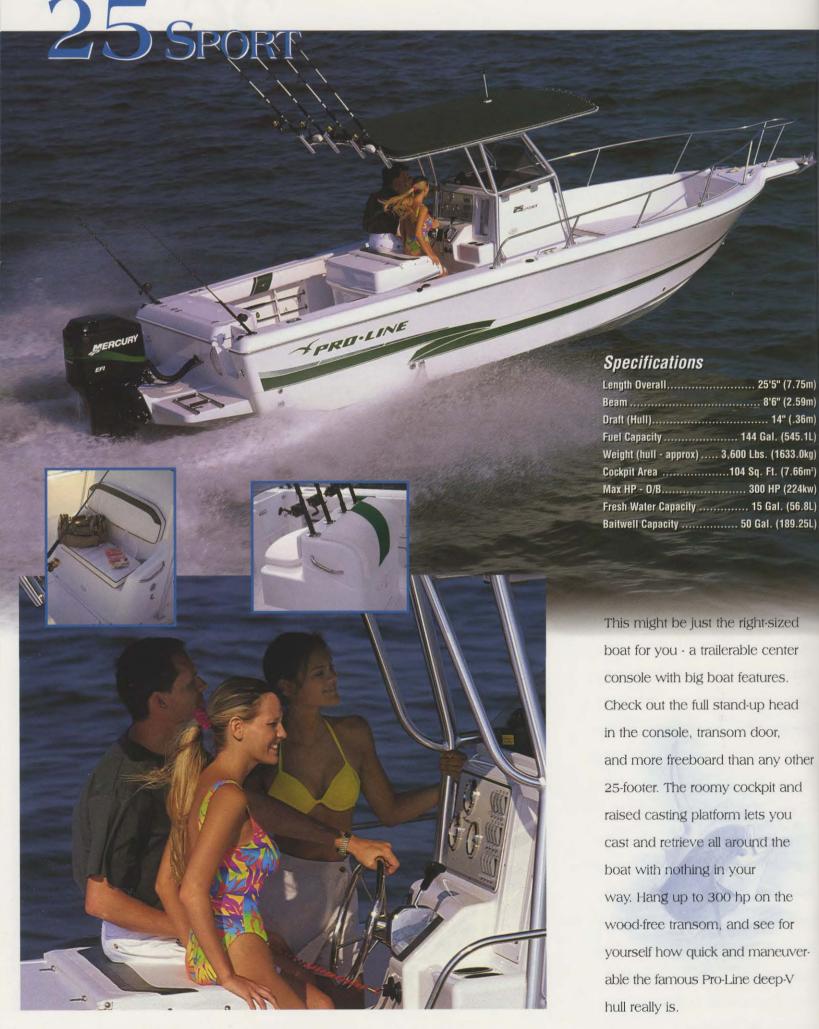

generation of Pro-Line fishing boats, with a radical design that goes far beyond the competition. The wide beam hull is longer, has a deeper degree of deadrise, planes faster and runs drier than any other 27' center console on the market. It also comes with a longer list of standard equipment, including a fully-enclosed head in the console, heavy-duty compass, 12-volt receptacle, dual bilge pumps and more. The new 27 Sport, catch one today and start catching fish tomorrow.

Fuel Capacity 95 Gal. (359.6L)
Weight (hull - approx) 2,750 Lbs. (1406.2kg)
Cockpit Area 92 Sq. Ft. (8.55m²)
Max HP - 0/B 225 HP (168kw)
Baitwell Capacity 35 Gal. (132.5L)

Rough and tough - if you're a go-all-day fisherman, this center console is for you, because the 22 Sport has the size and amenities that let you keep on fishing when others are heading back. Its deep-V hull and reverse chines run dry, solid and stable all the way to the farthest fishing grounds. There's a 35-gallon baitwell underneath the flip-flop console seat, plus the enclosed head in the console adds an extra measure of comfort making it the smooth way to rough it.

Pro-Care 5 Year Limited Warranty
10 Year Transferrable Hull Warranty

Casting Deck Fish/Storage Box Insulated Head - Porta Pottie Enclosed in Ctr. Console F.I.S.T. Fiberglass Stringer System Glove Box w/Lock Rod Holders - 1 Pair Switches & Breaker Panel

Specifications

Length Overall 20'2" (6.15m)
Beam 8'0" (2.44m)
Draft (Hull)
Fuel Capacity 70 Gal. (265.0L)
Weight (hull - approx) 2,500 Lbs. (1134.0kg)
Cockpit Area 87 Sq. Ft. (8.08m²)
Max HP I/0 210 HP (157kw)
0/B 200 HP (150kw)
Baitwell Capacity 9.75 Gal. (36.9L)

Combining the best features of a runabout and a fishing boat, the 20 Dual Console is big on versatility. The swing-open windshield provides a walk-through to the forward casting deck. Port and starboard consoles each contain large storage compartments. Behind the captain's chairs, you'll find insulated fish boxes and under-gunnel rod racks. This easy-to-maintain boat is ready for fishing action or family fun, even if you choose both for the same day.

 10 Gal. (37.9L)

- APROLINE

Like all good sport-utes, it goes off the beaten path with ease. With a draft of only 13", the 18 Sport Utility is at home poking around in backcountry shallows - or running flat out to a favorite fishing spot. Its uncluttered layout lets you "fish the whole boat" because of its unimpeded 360° access to the water. Comes ready to fish, with vertical rod storage, a ten-gallon baitwell, built in tackle box and plenty of dry storage.

ACCOLADES

"Every aspect of design for fishing on the Pro-Line 33 Express has been well-planned...This boat immediately enters the ranks of classic 31-35 foot fishing machines." - Sportfishing Magazine

"If the high quality and strong performance of the boat won't sell you, the (Pro-Care) hassle free five year warranty just might." - Gulf Coast Boating

"For more than 30 years Pro-Line has built a reputation for building boats with the latest innovations in fishing features, construction, materials, and styling." - Western Outdoors News

"This is a boat you can take right out of the box and into the proving grounds." - Great Lakes Angler

"There are times when I see a boat and wonder what type of person it's intended for. One look at Pro-Line's new 30 Walk however and I know exactly who was meant to own this boat: the avid angler." - Sea Magazine

"If you've never test driven a Pro-Line before, do it...they have a sweet ride like no other." - Boating Life

"Bringing quality to top of the line levels is one of Pro-Line's missions, and the 30 Walk is a perfect example of how the company met its goal." - Boating Magazine

How 80 pounds of air

blew the competition away.

MERCURY® OPTIMAX® uses an exclusive 2-stage Direct Fuel Injection process to provide unprecedented range, running quality and performance. So how does it work? First, fuel is discharged into a holding cavity. Then a burst of air (at 80 psi) shoots through it, pushing it into the cylinder. This process results in the best atomization of fuel possible. And finer atomization means superior performance-better than both Yamaha® HPDI and Evinrude® Ficht.

See The OptiMax **Difference For Yourself:**

YAMAHA HPDI (HIGH-PRESSURE **DIRECT INJECTION)** uses a highpressure pump to inject fuel into the cylinder at 700 psi. Although HPDI is the highest-pressure DFI outboard available, the droplets it produces are still twice the size of those in OptiMax. So the fuel doesn't burn as smoothly or completely.

EVINBUDE FIGHT RAM INJECTION™

uses a standard hammer-style plunger to force fuel into the cylinder at a pressure of 500 psi. And even at this higher pressure, the fuel droplets are much larger-because they have not been atomized by air. So the fuel doesn't burn as completely, and the engine is less fuel-efficient.

Unretouched photography of the direct injection process.

Further:

WITH ALL ENGINES RUNNING AT PEAK FUEL EFFICIENCY, OPTIMAX PROVIDES 20% **GREATER RANGE** THAN THE EVINRUDE FIGHT RAM AND 8% GREATER RANGE THAN THE YAMAHA HPDI.

Faster:

12% QUICKER ACCELERATION 0-20 THAN THE OMC® FICHT RAM AND **6% QUICKER ACCELERATION THAN** THE YAMAHA 200 HPDI.

Proven Reliability:

RIGOROUS ENGINE TESTING, BOTH AT OUR STATE-OF-THE-ART INTERNAL **TESTING CENTER AND OUR SALTWATER TESTING FACILITY, ENSURES OPTIMAX** WILL GET YOU HOME AT THE END OF THE DAY. EVERY DAY.

While we endeavor to be as accurate as possible, certain changes in standard equipment, options and the like may have occurred which would not be included in this catalog. This includes but is not limited to, information relating to fuel capacity, weights, speeds, fuel consumption and overall performance as they are estimates and could/will vary with each vessel and with each application. Pro-Line also reserves the right to modify our options offerings as necessary for quality and performance. In all cases, consult your local Pro-Line dealer for the most current information.
